GPA: 2.48

<b>OBJECTIVE</b>	Aerospace Engineering Student minoring in Electrical Engineering with years of Team Leadership experience seeking an Internship for the Summer of 2018.
<b>EDUCATION</b>	<b>B.S. in Aerospace Engineering (EE Minor)   Embry-Riddle Aeronautical University Prescott</b> Area of concentration: Astronautics. Minor in Electrical Engineering  <b>Electrical Engineering   Mesa Community College</b> Completed many pre-requisite classes, and some Electronic Engineering classes before transferring to Embry-Riddle.
<b>WORK EXPERIENCE</b>	<b>Team Leader   The Hub Grill</b> 2012 – 2018 Managed a team of kitchen and serving staff. Ensured product quality according to customer specifications.
<b>SKILLS</b>	<i>Engineering Software:</i> MATLAB, VHDL, VIVADO, CATIA, Inventor, SOLIDWORKS, Fusion 360 <i>Office Software:</i> Microsoft Word, Excel, PowerPoint, SharePoint, Outlook, OneNote, Publisher, Visio, Skype. <i>Technical:</i> Linux CLI, Git Version Control, Python, JavaScript, 3D Printing
<b>PROJECTS</b>	<b>3D Printing</b> Utilize a personal 3D Printer to prototype and iterate functional designs. Fusion 360 is my tool of choice for quickly making models, but I am also very proficient with all the CAD software listed above. 3D modeling has quickly become my favorite hobby.  <b>Personal Website</b> I manage a personal website at <a href="https://blog.ansonbiggs.com">https://blog.ansonbiggs.com</a> where I give detailed write-ups and guides for my projects that I think are worth sharing. Sharing my ideas like this has been a great tool to force myself to learn because I make sure to comprehend any subjects I write so that myself and others can use them as references.
